### Part 3

#### Questions 10 - 14

**Questions 10 to 14 are based on an article about 'Reuse'. Read the article and choose the best answer A, B or C. Shade your answer (A, B or C) in the Objective Answer Sheet provided.**

The term 'Reuse' involves using items again instead of throwing them away after just one use. By reusing items, we can save money, conserve resources and reduce pollution. One way to practice reuse is by using reusable bags when shopping instead of plastic bags. By using reusable bags, we can help reduce the amount of plastic waste that is generated and protect our planet.

Another way to reuse is by repurposing old items into something new. For example, old glass jars can be cleaned and used to store leftovers or as containers for crafts. This not only reduces waste but also gives old items a new life and purpose. In addition, donating items that are no longer needed instead of throwing them away is another way to practice reuse. Items such as clothing, furniture, and electronics can be donated to charities where they can be used by someone else who may need them. This helps to reduce waste and also supports those in need in our communities.

10. What is reusing an item?

- A. It is donating the item to charity once it become useless.
- B. It is throwing away the item after it is being used more than once.
- C. It is using the item again instead of throwing it away after just one use.
